

# Nature is

## GOOD FOR BUSINESS

The  
**Wildlife**  
Trusts

By partnering with **The Wildlife Trusts** your business will play an active role in nature's recovery and in tackling the climate emergency, whilst also benefitting the well-being of employees and developing more meaningful relationships with customers.

### HELP NATURE TO RECOVER

The Wildlife Trusts offer a land management advice service to help your business create space for nature, and where applicable can work with farmers and landowners in supply chains towards better outcomes for you and for wildlife.

### LEAVE A VALUED LEGACY

Contribute towards restoring 30% of the UK's lands and seas by 2030 in partnership with your local Wildlife Trust. Your financial support can help a huge array of projects – from creating new wild places to better connecting people with wildlife, benefitting your employees and your local community!

### MITIGATE YOUR ENVIRONMENTAL IMPACT

Together we can restore natural landscapes across the UK to support wildlife, reduce carbon emissions and help clean up our rivers. Nature-based solutions tackle some of the major issues faced by society today.

### ENGAGE EMPLOYEES FOR WELL-BEING

People who feel connected to the natural world experience better well-being and quality of life. From nature challenges to practical guides to greening office grounds and organising team conservation days – we can bring nature and its benefits to your employees. Explore Wild Wellbeing options.

If your business is interested in promoting wildlife and wild places in its communities, please consider supporting your local Wildlife Trust in the first instance. Collectively, we're proud to partner with national businesses that closely align with our values and mission in helping to tackle the climate and nature crises, with people inspired and supported to take action for nature's recovery. Get in touch to work with us.
